

Types of Student Data Collected By Cripple Creek-Victor School District, Beyond What CDE Requires

Executive Summary

This document shows the types of student data collected by our district (beyond what CED requires), for what purposes, and the means by which it is collected.

While the majority of data collected by the district is for serving regulatory requirements from a federal agency or state regulatory agency, some student data may serve operational needs local to the district such as emergency communications with families, facilitating transportation, providing certain services to students, facilitating formative assessments, etc.

Student data is highly regulated by multiple federal and state laws including FERPA, COPPA and HB 16-1423, and is maintained per records retention policies of the district. Within district systems access to this data is defined and restricted by staff role, and system users are required to log-in through secure channels to access such data.

Types of Student Data Collected, beyond what CDE requires:

No.	Type of Data	What specific data is collected beyond what CDE requires?	What needs does it serve?	Who provides / collects this data, and how often is it updated?
1	Student Demographic	<ul style="list-style-type: none"> • Enrollment History • Previous Academic Services • Immigrant Status • Student Number (local District student identifier, not SSN) 	State and Federal Funding, Compliance, Safety, Student Services, Notifications, Academic Achievement, Assessment	Parent-provided at enrollment, annual updates, and ongoing
