I like how we are getting very tight with our data and intentional.</p>	<p><b>STRENGTHS:</b>            This week was great to see the vulnerability of staff members discussing issues of rigor and academic risk-taking in their classroom. We have come a long way in</p>

level of difficulty for our own classrooms.	wait another week to assess.		collegial relationship-building this year!
<p><b>GOALS:</b></p> <p>*Make sure that objectives are identified first, and assessments are chosen second versus the other way around. Ensure that objectives align to a Colorado State Standard.</p> <p>*Differentiate objectives to reflect the formative data revealing achievement levels for each classroom.</p> <p>*Ensure that objectives are created before the assessments.</p> <p>*Increase the use of academic language through dialogue with students (Think: Bloom's verbs, and content rich vocabulary).</p>	<p><b>GOALS:</b></p> <p>*Keeping high expectations will increase student output... If we want three paragraphs, require five.</p> <p>* Expand what we are learning through literacy into other lessons. Continue to work toward bringing the Learning Agenda into lesson planning format.</p> <p>*Get creative with making assessments more manageable (i.e. instead of assessing the entire class with a page long writing assignment, assess 4 students a day with a one page assignment, or assess the entire class with a one paragraph assignments that is focused on a specific skill such as topic sentence.)</p>	<p><b>GOALS:</b></p> <p>As we become more focused on our data let's begin to explore methods to elevate the students who might not be meeting expectations. To drive growth.</p>	<p><b>GOALS:</b></p> <p>I would like to focus this week on ways in which we can begin to create safe spaces within our classrooms by having courageous conversations with our students when outlining expectations.</p>
